PREFACE

HYPERLINK FEATURE

The digital version of this report has been hyperlinked. Click on the title of a section or a table in the List of Tables and you will be automatically directed to the actual content section or table in the report.

This report provides the detailed results for each question from this school/district’s 2016–17 *California Healthy Kids Survey* (CHKS), presented in tables organized by topic.

The CHKS, along with its two companion surveys—*California School Staff Survey* (CSSS) for staff and the *California School Parent Survey* (CSPS)—is a service of the California Department of Education (CDE). These three surveys form the *California School Climate, Health, and Learning Surveys* (Cal-SCHLS) System, the largest, most comprehensive effort in the nation to regularly assess students, staff, and parents at the local level to provide key data on school climate and safety, learning supports and barriers, and stakeholder engagement, as well as youth development, health, and well-being. Exhibit 1, at the end of the Preface, presents the major school-related domains and constructs assessed by Cal-SCHLS.

These surveys grew out of CDE’s commitment to helping schools promote the successful cognitive, social, emotional, and physical development of all students; create more positive, engaging school environments for students, staff, and parents; and ensure college and career readiness. They provide a wealth of information to guide school improvement and **Local Control and Accountability Plan** (LCAP) efforts, particularly in regard to the state priorities of enhancing school climate, pupil engagement, and parent involvement.

Factsheets, guidebooks, and other resources to help in understanding and using CHKS results are available for downloading from the survey website—chks.wested.org—including *Helpful Resources for Local Control and Accountability Plans* (chks.wested.org/resources/LCAP_Cal_SCHLS.pdf). The California Safe and Supportive Schools website also provides information and tools helpful in implementing effective strategies to address the needs identified by the survey.

The Cal-SCHLS Technical Assistance Center offers workshops to help identify local needs and develop action plans to meet those needs, including a *Listening to Students Workshop* for involving student voice in the process (see below).

THE SURVEY

The California Department of Education (CDE) has funded the CHKS since 1997 to provide data that would assist schools in: (1) fostering safe and supportive school climates, social-emotional competencies, and engagement in learning; (2) preventing youth health-risk behaviors and other barriers to academic achievement; and (3) promoting positive youth development, resilience, and well-being. A thorough understanding of the scope and nature of youth behaviors, attitudes, and learning conditions is essential to guide school improvement efforts, improve academic performance, and develop effective prevention, health, and youth development programs.

The CHKS is not just a standalone instrument but a data collection system that districts can customize to meet local needs and interests. The secondary-school CHKS consists of a required general Core Module and a series of optional, supplementary topic-focused modules that districts can elect to administer. Districts may also add their own questions of local interest in a custom module. Table 1 indicates the modules administered by the district/school.

Core Module

As outlined in Exhibit 1, the Core Module consists of key questions, identified by an expert advisory committee, that are considered most important for schools to guide improvement of academic, health, and prevention programs and promote student achievement, college and career readiness, positive development, and well-being. The great majority of the questions are school-specific, including the following indicators:

- Student grades, truancy, reasons for missing school, academic motivation, and school connectedness, as indicators of engagement;
- The levels of students' three fundamental developmental supports (protective factors) that promote positive academic, social, and emotional outcomes: experiences of caring adult relationships, high expectations, and opportunities for meaningful participation at school;
- Perceived safety and the frequency and type of harassment and bullying at school; and
- Levels of violence, substance use, and crime-related behavior (e.g., weapons possession) at school.

Supplementary School Climate Module

To further support school improvement efforts and the LCAP process, a supplementary School Climate Module is available. It provides additional data on student academic mindset, school academic supports, discipline/order, supports for social-emotional learning, bullying prevention and positive peer relationships, respect for diversity, and the quality of the physical environment (download from chks.wested.org/administer/download/supplemental/#clim). A companion Learning Conditions module can be added to the staff survey to compare their perceptions on the same constructs.

Supplementary Social Emotional Health Module (SEHM)

The SEHM greatly enhances the value of the CHKS as a strength-based assessment of positive emotions, engagement, ability to build and maintain relationships, and other social-emotional capacities linked to student mental health and well-being, academic success, and college and career readiness. It includes 46 items that capture the totality of core adolescent psychological assets.

SURVEY ADMINISTRATION AND SAMPLING

School staff administered the survey, following detailed instructions provided by CDE that were designed to assure the protection of all student and parental rights to privacy and to maintain confidentiality. Students were surveyed only with the consent of parents or guardians. Each student's participation was voluntary, anonymous, and confidential. Table A1.1 gives the target sample of students and the final number and percent of students who completed the survey (the participation response rate).

THE REPORT

The tables in the Main Report, organized by topic, provide the percentages responding to each question response option by grade level. Because it is just as important to identify the positive behaviors of youth as it is to identify the risks they face, the tables reporting risk-behavior data include the percentages of youth who responded negatively (did not engage in the behavior).

Racial/Ethnic and Gender Results

The demographic questions on the CHKS help districts meet the LCAP requirement to identify and address variations in state priorities among significant student subgroups, including differences by race/ethnicity, gender, socioeconomic status; homeless, migrant, and foster youth; and English language learners. In this report, summary tables provide key findings (e.g., safety, harassment, developmental supports, school connectedness) disaggregated by race/ethnic categories and gender. Schools can request supplementary reports disaggregating all their CHKS results by the race/ethnicity or gender of students or by other demographic categories.

UNDERSTANDING THE DATA

Care must be taken to understand the factors that can impact the quality, validity, and generalizability of the results, such as changes that occur in survey content, administration, and/or sample characteristics between administrations. The following are a few of the key issues that should be kept in mind. A more detailed discussion of these topics can be found in the *CHKS Guidebook to Data Use and Dissemination* (download chks.wested.org/resources/chks_guidebook_3_datause.pdf).

Sample Characteristics

Among the most important factors affecting the quality of survey results is the level and type of student participation. The validity and representativeness of the results will be adversely affected if the student response rate is lower than 70%. One indication of the survey's representativeness is how accurately the sample reflects the gender and ethnic composition of the student enrollment. Even if the response rate is low, the results provide an indication of what those students who did respond felt about the school and their experiences and behavior.

Changes Between Survey Administrations

Many factors besides real changes in behavior, attitudes, or experiences among students may account for changes in results from administration to administration. Changes may be due to differences over time in the characteristics or size of the sample of students who completed the survey, changes in the questions themselves, or differences between time periods in which the survey was administered (e.g., some risk behaviors tend to increase as students age, or may increase during holidays or social events).

RESOURCES

The CHKS and Cal-SCHLS websites contain guidebooks and other tools for using and understanding survey results, including factsheets that show how data variables are related and offer suggestions for how data can be analyzed at the local level.

CDE's California Safe and Supportive Schools website (CaliforniaS3.wested.org) contains a wealth of information and tools related to school climate improvement and social-emotional learning. It includes factsheets analyzing Cal-SCHLS data and *What Works Briefs* that provide guidance on strategies to implement.

The School Climate Connection Newsletter provides monthly announcements of resources, tools, webinars and workshops, and research. Sign up on the CHKS or CaliforniaS3 websites.

Among the tools available to help in understanding and using the survey results, especially for LCAP implementation and monitoring, *Making Sense of School Climate* provides a discussion of all the Cal-SCHLS survey items that relate to school climate (download californias3.wested.org/resources/S3_school_climateguidebook_final.pdf)

Helpful Resources for Local Control and Accountability Plans (chks.wested.org/resources/LCAP_Cal_SCHLS.pdf) describes how survey items align with LCAP priorities and indicators. Also available is an LCAP-related PowerPoint presentation (chks.wested.org/training-support/workshops-presentations).

NEXT STEPS

Receiving this report is just a beginning step in a data-driven decision-making process. The results of this student survey should be compared to those obtained from the Cal-SCHLS surveys of school staff and parents. It is important to determine how consistent are student, staff, and parent perceptions and experiences.

CHKS results will also be enriched if analyzed in the context of other data typically collected by schools that relate to the variables assessed, such as discipline referrals, school demographic information, school vandalism costs, and behavioral observations in classrooms.

The following custom services (additional fees apply) are available through the Cal-SCHLS TA Center to help in fostering effective use of the results to support school and program improvement efforts and the LCAP process.

Request School Reports

If the schools in the district vary significantly in demographics, programs, or other characteristics, consider requesting individual reports for each school (a fee applies). Two types of reports are available:

- A full report with all the survey results.
- A short, user-friendly, graphic **School Climate Report Card** that provides results across eight domains of school climate and provides an overall **School Climate Index** score based on those domains. (View a sample report: visit californias3.wested.org/resources/California_State_SCRC_1314.pdf).

Request District School Climate Report Card

For districts that survey all their schools, a district-level School Climate Report Card can be requested. This is a powerful, useful tool for guiding efforts to meet the school climate and pupil engagement priorities for the Local Control and Accountability Plan.

Request Disaggregated Reports

The staff of the Regional TA Centers can produce full reports that look at how results vary by demographic subgroups (e.g., race/ethnicity as discussed above, or by youth who are low in academic motivation compared those who are high). This is particularly important given the LCAP requirement that districts identify and address the needs of underserved subgroups.

Conduct Additional Analyses of Dataset

The complete dataset is available electronically for additional analysis (there is a small fee for preparation). The dataset enables analyses of patterns in the results, how they are interrelated, and how they vary by different subgroups of student and across schools within a district. You can also request an analysis by subgroups as a custom service.

Add Questions to Your Next Surveys

Determine what additional information is needed from students to guide school improvement efforts and add questions to your next CHKS or CSSS. Both surveys were designed so that schools can add additional questions to help them conduct a more individualized and comprehensive assessment.

Engage Students, Staff, and Parents in an Action Planning Process

Engage students, staff, and parents in reviewing and exploring the meaning of the results and obtain their input into how the school might better meet the identified needs and into the development of a detailed action plan. This communicates to stakeholders that you value their input into how to improve the school and gives them an opportunity for meaningful participation. This helps enhance pupil engagement and parent involvement, two LCAP priorities. It will also promote higher rates of participation the next time the survey is administered, as stakeholders will see how the data has been used for positive purposes.

On request, Cal-SCHLS staff can conduct a structured *Listening to Students Workshop* designed to explore with students, as staff observe, the meaning of survey results and obtain their input on how to address the needs identified by the survey. Cal-SCHLS staff also can conduct a Data Use Action Planning Workshop designed to identify local needs based on the survey results and engage adult stakeholders in developing a detailed plan and timetable for meeting those needs using evidence-based strategies. For more information, contact your Cal-SCHLS Technical Assistance Center (call 888.841.7536 or email schoolclimate@wested.org). See also: californias3.wested.org/training-support/workshops.

2 days	–	4	2	–
3 days	–	5	3	–
4 days	–	1	3	–
5 days	–	11	8	–

Question HS/MS A.17: How many days a week do you usually go to your school's afterschool program?

Notes: Cells are empty if there are less than 10 respondents.

Table A3.12***Military Connections***

	Grade 7 %	Grade 9 %	Grade 11 %	NT %
No	–	75	83	–
Yes	–	20	16	–
Don't know	–	5	1	–

Question HS A.117/MS A.107: Is your father, mother, or caretaker currently in the military (Army, Navy, Marines, Air Force, National Guard, or Reserves)?

Notes: Cells are empty if there are less than 10 respondents.

Table A3.13***Sexual Orientation and Gender Identification***

	Grade 7 %	Grade 9 %	Grade 11 %	NT %
Heterosexual (straight)	–	80	81	–
Gay or Lesbian	–	5	9	–
Bisexual	–	7	11	–
Transgender	–	4	5	–
Not sure	–	6	7	–
Decline to respond	–	10	11	–

Question HS A.118/MS A.108: Which of the following best describes you? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents. Total percentages may exceed 100% for "mark all that apply" items.

4. School Performance, Supports, and Engagements

Table A4.1
Grades, Past 12 Months

	Grade 7 %	Grade 9 %	Grade 11 %	NT %
Mostly A's	–	11	16	–
A's and B's	–	39	36	–
Mostly B's	–	8	7	–
B's and C's	–	20	22	–
Mostly C's	–	6	12	–
C's and D's	–	8	7	–
Mostly D's	–	3	1	–
Mostly F's	–	3	1	–

Question HS/MS A.18: During the past 12 months, how would you describe the grades you mostly received in school?

Notes: Cells are empty if there are less than 10 respondents.

Table A4.2
Truancy, Past 12 Months

	Grade 7 %	Grade 9 %	Grade 11 %	NT %
0 times	–	69	61	–
1-2 times	–	17	15	–
A few times	–	10	15	–
Once a month	–	2	2	–
Once a week	–	1	4	–
More than once a week	–	1	2	–

Question HS/MS A.19: During the past 12 months, about how many times did you skip school or cut classes?

Notes: Cells are empty if there are less than 10 respondents.

Table A4.3***Reasons for Absence, Past 30 Days***

	Grade 7 %	Grade 9 %	Grade 11 %	NT %
Does not apply, I didn't miss any school	–	36	28	–
Illness (feeling physically sick), including problems with breathing or your teeth	–	50	56	–
Felt very sad, hopeless, anxious, stressed, or angry	–	11	15	–
Didn't get enough sleep	–	12	21	–
Didn't feel safe at school	–	1	5	–
Had to work	–	3	2	–
Had to take care of or help a family member or friend	–	11	13	–
Wanted to spend time with friends who don't go to your school	–	3	2	–
Wanted to use alcohol or drugs	–	1	3	–
Were behind in schoolwork or weren't prepared for a test or class assignment	–	6	19	–
Were bored with or uninterested in school	–	6	12	–
Were suspended	–	3	2	–
Other reason	–	20	14	–

Question HS/MS A.20: In the past 30 days, did you miss school for any of the following reasons? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents. Total percentages may exceed 100% for “mark all that apply” items.

Table A4.4***School Environment Scales***

0 times	na	66	68	–
1 time	na	5	2	–
2 to 3 times	na	6	6	–
4 or more times	na	23	24	–

Question HS A.52-55: During your life, how many times have you used the following substances?... Prescription pain medication (Vicodin™, OxyContin™, Percodan™, Lortab™), tranquilizers, or sedatives (Xanax™, Ativan™)... Diet Pills (Didrex, Dexedrine, Zinadrine, Skittles, M&M's)... Ritalin™ or Adderall™ (JIF, R-ball, Skippy) or other prescription stimulant... Cold/Cough Medicines (Triple-C's, Coricidin Cough, Sudafed, Ther-aFlu, Tylenol Cough) or other over-the-counter medicines.

Notes: Cells are empty if there are less than 10 respondents.

na—Not asked of middle school students.

Table A6.4**Current AOD Use, Past 30 Days**

	Grade 7 %	Grade 9 %	Grade 11 %	NT %
Alcohol (at least one drink)	–	17	22	–
Binge drinking (5 or more drinks in a row)	–	4	8	–
Marijuana	–	9	13	–
Inhalants	–	1	0	–
Prescription medications to get “high” or for reasons other than prescribed	na	4	5	–
Other drug, pill, or medicine to get “high” or for other than medical reasons	–	3	3	–
Any drug use	–	11	16	–
Heavy drug use	–	6	11	–
Any AOD Use	–	21	29	–
Two or more drugs at the same time	na	3	7	–

Question HS A.63-69/MS A.58-62: During the past 30 days, on how many days did you use... at least one drink of alcohol... five or more drinks of alcohol in a row, that is, within a couple of hours... marijuana (pot, weed, grass, hash, bud)... inhalants (things you sniff, huff, or breathe to get “high”)... prescription medications to get “high” or for reasons other than prescribed (such as Vicodin™, OxyContin™, Percodan™, Ritalin™, Adderall™, Xanax™)... any other drug, pill, or medicine to get “high” or for other than medical reasons... two or more substances at the same time (for example, alcohol with marijuana, ecstasy with mushrooms)?

Notes: Cells are empty if there are less than 10 respondents.

Heavy drug use was calculated based on pattern of combined current drug use on three or more days (marijuana, inhalants, prescription pain medicine to get “high” (high school only) and any other illegal drug/pill to get “high”).

na—Not asked of middle school students.

Table A6.5***Frequency of Current AOD Use, Past 30 Days***

	Grade 7 %	Grade 9 %	Grade 11 %	NT %
